<sup>1</sup> Coalition requests, calculated from the FY2026 funding levels, do not reflect the true need for each program and the people they serve.

<sup>2</sup> The President's FY2027 Budget Request proposes moving these programs to the Administration for Health America.

<sup>3</sup> This increase includes \$100M request specifically to initiate a national PrEP initiative to support ending the HIV epidemic.

<sup>4</sup> The President's FY2027 Budget Request proposes to combine these four programs, distribute funding by block grant, and fund the programs at a combined \$70.3 million less than what was appropriated for each program in FY2026. ABAC opposes these proposed cuts.

<sup>5</sup> ABAC requests that \$75 million of the increase be allocated through the ADAP base funding awards and \$100 million allocated to the ADAP Emergency Relief Funding.
